Summary

- **Android Developer | Full Stack Developer** - Skilled in Kotlin, Java, Jetpack Compose, and Firebase, building scalable and user-centric mobile apps. Passionate about real-time databases, API integration, and AI/ML-powered solutions. Focused on innovation, performance, and seamless user experience.

Skills

- Languages- Java, Kotlin, Python, PHP, SQL, C, C++.
- Mobile Development- Android SDK, Jetpack Compose, Kotlin Coroutines, MVVM, XML, LiveData, Navigation Component, Material Design, UI/UX, Dagger Hilt, WorkManager, Paging3, ViewModel,
- API & Backend Development- .Net,OkHttp, Retrofit, Volley, REST APIs, FCM (Firebase Cloud Messaging), Google Maps API,
- Cloud & Database Technologies- Room DB, SQLite, Firebase Realtime Database, Firebase Firestore, SharedPreferences
- Development & Collaboration Tools- Git, GitHub, Postman, Figma, Unit Testing, Beta Testing, Data Structures and Algorithm's

Experience

Full stack developer, web developer **FlippitMedia** *Mumbai,India* 02/2026 – 04/2026

Developed a responsive health platform with structured services (1:1 coaching, group programs, consultations) and optimized user conversion flows.Built modular, high-performance UI with SEO optimization and cross-device compatibility.Designed scalable backend-ready architecture supporting CRM, personalization, and future AI integration.

Mobile App Developer, Intern **AquilaEvents** *Noida,India* 11/2025 - 04/2026

Built scalable mobile solutions by developing reactive UIs with Xml/Jetpack Compose and Kotlin Flow in an MVVM–Hilt,Node js architecture, integrating REST APIs with Retrofit for dynamic data handling, implementing a secure BroadcastReceiver for SMS-based expense tracking, and Firebase Cloud Messaging for real-time notifications and Aws as Amazon Cloud Database.

Android Developer, Intern **CodeFt Solutions** *pune, India* 10/2023 - 01/2024

Developed RESTful APIs for E-Patsantha (E-Learning Platform) and a Local Banking Application. Built backend services using Spring Boot, MySQL, and microservices architecture. Implemented secure authentication, role-based access control, and efficient database management. Integrated external/internal APIs and optimized data handling for high-performance operations. Improved system scalability through microservices and enhanced backend reliability with structured logging, error handling, and performance tuning.

Education

Bachelor of Technology (BTech), Computer Science and Engineering

- Government College of Engineering, Chhatrapati Sambhajinagar,India **Pursuing** CGPA: 8.67 07/2024 – 06/2027

Diploma in Computer Engineering

- Government Polytechnic Ambad, Maharashtra, India Percentage: 93.60 06/2021 – 06/2024

Projects

- **AGEWELL -Elder Care App** GitHub : Built a health monitoring app with SOS alerts, medication, and real-time hospital mapping using FCM, Firebase, and OpenStreetMap API. Developed with Kotlin, Java, and MVVM for seamless user experience.
- **CARBON VIEW - Carbon Footprint Tracker** GitHub : Developed a carbon footprint tracker that calculates emissions from manual entries, CSV files, and IoT devices.Integrated real-time IOT data and built an industry dashboard for tracking emissions.
- **Marksheet Generation & Analysis:** GitHub An automated result-processing system for academic institutions, enabling fast marksheet generation, data visualization, and performance analysis. Built with Java, XML, Firebase, and MPAndroidChart using MVVM architecture, featuring secure data management, customized reports, and graphical performance insights.
- **Shetkari-Mitra Snake Safety Application :** GitHub: An Android-based safety app delivering real-time first-aid guidance, emergency alerts, and geo-fenced warnings for snake-prone zones. Developed using Java, XML, Firebase, and Google Maps API with MVVM architecture, featuring offline-ready first-aid modules, integrated emergency contact workflows, and location-aware safety measures.

Achievements

IndiaSkills 2026 (Medallion of Excellence, AIR 4) Nationals at Delhi **| Gold Medalist** – West Regional Skills(5 states), Ahmedabad
Gold Medalist – MaharashtraSkills 2025–26
HackFusion'25 – 1st Place, SGGS Institute of Engineering and Technology, Nanded
Innovo Hackathon – 1st Place, Shri Sant Gajanan Maharaj College of Engineering,Shegaon,Maharashtra
Wings Hackathon – 3rd Place, Government College of Engineering Aurangabad
National Level Project Competition – 1st Place, Prof. Ram Meghe Institute of Technology and Research (Developed AgeWell App)

Certifications

- Git|Github Fundamentals: Udemy
- Android Developer: CodeFt Solutions PVT ltd.
- Pyhton Programmer : Udemy

Languages

- English (Fluent), Hindi (Fluent), Marathi (Fluent),
